-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Papers Received

Receipt is acknowledged of the applicant's response and additional documentation, all received on 19 August 2004. Receipt is acknowledged of the applicant's supplemental response, received on 03 November 2004.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-33 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contain subject matter that was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventors, at the time the application was filed, had possession of the claimed invention. The instant claims are directed to a process of making dextran compositions. This instantly claimed process broadly recites a hydrogenation step and an oxidation step. However, a review of the instant specification shows that the only compound mentioned as being suitable for use in the hydrogenation step of the instantly claimed invention is sodium borohydride, and the only compound mentioned as being suitable for use in the oxidation step of the instantly claimed invention is sodium hypochlorite. Thus, the instant claims do not comply with the written description requirement.

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

The rejection of Claims 1-33 under 35 U.S.C. 103(a) over Usher *et al.* is hereby withdrawn.

The rejection of Claims 8, 14, and 27 under 35 U.S.C. 103(a) over Usher *et al.* and Mioduszewski *et al.* is hereby withdrawn.

Response to Arguments

Applicant's arguments filed 03 November 2004 have been fully considered, but the instant claims are not yet allowable.

In view of the evidence submitted by the applicant, as well as the signed statement by Professor Klaus Block, the examiner has determined that the instant claims are free of the prior art. However, as the instant claims fail to comply with the written description requirement, they are not in condition for allowance.

It is an established of the Office that the disclosure of a single species does not constitute a sufficient disclosure to support the claim of a genus to which that species belongs. See MPEP § 2163, 2163.05, and 2164.03. The examiner suggests canceling Claims 5, 6, and 21-23 and incorporating the limitations of Claims 21 and 23 into Claims 1 and 9 in order to put the case in condition for allowance.
